Art Unit: 1652

Applicant's response to restriction requirement filed 3/20/2003 is acknowledged.

Applicant elected Group 9 invention directed to claims 1-7, 12, 18, and 51-54 without traverse.

Claims 8-11, 13-17, 19-50 and 55-71 are withdrawn as drawn to non-elected invention.

However, upon further review of the restriction letter mailed 1/17/2003, it was noticed that said claims are in fact directed to two independent and distinct inventions, grouped together due to the inadvertent error. The examiner would like to apologize for any confusion that the previous office action might have caused the applicant.

In view of aforementioned reason, further restriction of the elected invention deemed necessary as following:

Group 9a: claims 1-7, 12, 18 and 51-52, drawn to isolated DNA sequences encoding **human STMST-1** (SEQ ID NO:71) polypeptides, host cells and kits comprising said sequences and methods of expressing said sequences, classified in class 435, subclass 69.1.

Group 9b, claims 1-7, 12, 18 and 53-54, directed to isolated DNA sequences encoding **human STMST-2** (SEQ ID NO:74) polypeptides, host cells and kits comprising said sequences and methods of expressing said sequences, classified in class 435, subclass 69.1.

The inventions of Groups 9a and 9b are patentably distinct because each invention is directed to products of unrelated chemical structure and function.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1652

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
